

## CHEM&BIO

### NTD CHEM & BIOTECH GROUP

#### FOCUSED, PROFESSIONAL, DIFFERENT

Quality is life, that is our simple philosophy. Bearing this in mind, the NTD Chemistry and Biotech Practice Group is committed to providing the highest quality intellectual property legal services for clients in chemistry, pharmaceutical, life sciences and related industries.

As one of the earliest and most reputable patent prosecution teams specialized in related fields in China, we have been helping companies of all sizes, from domestic start-ups to MNCs, as well as universities and academic institutes, to develop IP protection strategies for their innovations. With thirty years of development, the NTD Chemistry and Biotech Group has now become an experienced and fully integrated patent prosecution, counseling and litigation team. Our services cover patent mining, filing strategy, patent drafting and procurement, patent search and analysis, legal opinions, strategic counseling, and representing clients in patent infringement, invalidation, and litigation cases. We truly appreciate every client, colleague or friend for having ever requested our assistance, and treasure each case we have been entrusted with. We love the atmosphere established with our clients, colleagues and friends through closely working together. And the most enjoyable thing for us is to witness the growth and success of our clients, with our efforts being part of it.

Most of our attorneys in the NTD Chemistry and Biotech Group have advanced degrees, including doctorates, in chemistry, pharmaceutical, medicine or molecular biology. We are confident that, with a combination of excellent technical background, strong expertise in intellectual property law and practice, and globalizational IP perspective, our patent attorneys and litigators are able to provide comprehensive, professional and efficient IP legal services for our clients in the following subareas.
