

NTD LEGAL GROUP

DEDECATED, PROFESSIONAL, CLIENT-ORIENTED, PRAGMATIC

NTD Law Office is a law firm mainly providing legal services in the area of intellectual property. Its establishment is to meet the ever-increasing demands for disputes settlement and related legal services in a more direct, efficient and comprehensive way.

The office originated from the Legal Department of NTD Patent and Trademark Agency Limited. Years of practice have helped its people accumulate rich experience.

Many of our lawyers have been abroad to the law schools or law firms for training or academic education. Some of them are also patent or trademark agents with strong technical background and experience of patent or trademark prosecutions. A combination of technical background, practical experience and legal knowledge strengthens their ability in providing legal services for clients. In addition to its own sources and management system, the Office is well supported by the patent and trademark attorneys in NTD Patent and Trademark Agency Limited. In this way, lawyers in the Office are able to understand fully clients' needs and make appropriate comments and suggestions that are workable to clients.

Our mission is to make every effort to maintain and protect clients' intellectual property rights with our professional qualifications, our devotion, team cooperation and expertise.
