### OVERVIEW

Xianpu worked as a patent examiner in Mechanical Invention Examination Department of CNIPA for 10 years and a senior counselor in Patent Search and Consultation Center of CNIPA for 7 years. He dealt with over a thousand cases of substantive examination and invalidation and hundreds of cases of patent search and analysis when in CNIPA.

Xianpu joined NTD in 2015. His areas of practice cover mechanical engineering, electrical and electronics engineering, power & energy machinery, medical instruments, vehicles, etc. He has abundant experience in patent search and analysis, patent prosecution, reexamination and invalidation matters. He is particularly experienced in FTO search and analysis.

---
